cable erection

No field work today. I came into the office for a half day to catch up on paperwork & prepare for other upcoming Cable operations.

- At 08:30, I drove out to the end of Skyway to check to make sure that no crews were working today.
- From 08:45 until 10:30, I reviewed ABF Submittal 1179 (Tower Saddle Erection Plan). This submittal includes information regarding several items in the Tower saddle that have not yet been done, and need to be done prior to load transfer (installing & tensioning tie rods, installing steel wedges in between divider plates).
- From 10:30 until 12:00, I compile a draft inspection checklist for the upcoming Cable compaction operation. I then emailed it to Roman Granados & Warren Collins for review.
- From 12:00 until 12:30, I wrote my daily diary & submitted my timesheet for the week.
